make a statement

The stories of the world are acted out on the stage. Scenic Solutions knows that high quality scenery should awe and engage an audience while contributing to the work of the performers. Many of our clients come to us with great ideas, but no way to visualize the ideas on stage. We work with you to flawlessly integrate the set, stage, and props into the perfect performance.

Scenic Solutions offers a wide variety of custom and rentable scenic elements for your stage production. These services include: custom built scenery and stages, backdrops, theatre fabrics, and props.
